CAREER OBJECTIVE

Product-focused and ownership-driven full-stack developer with freelance experience building scalable, real-world web applications. Seeking an internship or full-time opportunity to apply my technical skills, grow through continuous learning, and contribute to impactful projects within a dynamic and collaborative environment.

WORK EXPERIENCE

• Freelance Full-Stack Developer

1. Worksani.ge – Home Services Marketplace

May 2025 – Jun 2025 (1.5 months)

React, Node.js, Express.js, MongoDB, Socket.io

Description: Spearheaded the design and development of a full-stack home services platform connecting customers with verified service providers.

- Built end-to-end features including real-time chat, role-based dashboards, and admin review workflows.
- Developed a secure backend with Node.js, Express, and MongoDB.
- Added real-time chat using Socket.io for instant customer-provider communication and Support chat.
- Deployed application on server for production use.

2. Consultancy Website for Abroad Admissions

Jan 2025 – Mar 2025 (2 months)

HTML, CSS, JavaScript, Node.js, Express.js, HBS, MongoDB

Description: Designed and developed a consultancy website, focused on admissions to universities abroad across various disciplines.

- Built the website using HTML, CSS, JavaScript, Node.js, and MongoDB.
- Ensured responsive design and optimized performance for both desktop and mobile users.
- Collaborated directly with the client to gather requirements and deliver a tailored solution on time.
- Deployed application on Ubuntu server with Nginx for production use.
